## GIDEON’S 300—LEONIDAS’S 300—THE ALAMO’S 200

### Will You Join DIXIE’S 500?

In the fall of 2023 one of the Kennedy Twins will run for Lt. Governor of Louisiana **IF** 500 folks will financially help us to kick off this effort. We will turn the Lt. Governor’s office into a Bully Pulpit. We will use the office to organize every Southern state and hang the leftist ruling elites on the horns of a dilemma—either return to real States’ Rights, local self-government, or we will form a Red State-Red County nation of our own. It takes money to run and win. The South & America needs *500 patriots to contribute \$500.00*. This war-chest will enable us to initiate a campaign that the media, state and national, will not be able to ignore. Will you be a part of Dixie’s 500?

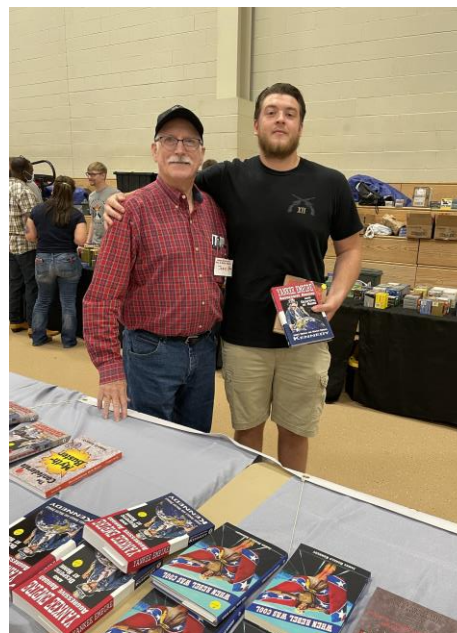

History is full of examples of brave men, facing seemingly impossible odds, yet their courage and dedication encourages future strategic victories for their cause. Gideon, of the Old Testament, won a great victory with only 300 men. Leonidas’s 300 Spartans at Thermopylae and the 200 Texans at the Alamo lost their battle but they inspired future generations and “Remember the Alamo” became a major motivating factor for Texas. During the War for Southern Independence Yankees used 600 Confederate POWs as a Human Shield but the brave 600 Southerners refused to beg for mercy and cheered every time a Confederate cannon hit the Yankee fort (*The South War Right!* 3<sup>rd</sup> edition, pages 193-6). The Hungarian Freedom Fighters in 1956 rose against the Soviet Union’s occupation of their country. They were crushed by Soviet tanks, yet their valor and dedication to liberty motivated future generations of Hungarians. History is full of examples of a few courageous and dedicated individuals standing against and eventually defeating tyranny. Five hundred Southerners could initiate a non-violent, conservative revolution—a revolution that would result in a fundamental change in American government. Five hundred courageous Southerners could jump-start a revolution in which “We the people” remove the unconstitutional supreme Federal Government and replace it with America’s original, constitutionally limited Republic of Sovereign States!

## Louisiana Gun Shows—Promoting the Cause One City at a Time

The Kennedy Twins have made a commitment to attend every Louisiana Gun Show that our schedule will allow. Between 2022 and 2023 we will be in every major city in Louisiana. We have already done one in the New Orleans and Alexandria areas. We will be at the West Monroe Gun Show June 11-12. These Shows give us an opportunity to promote the SCV—we purchase and give out Confederate Legion **Dixie Defenders** specially designed for Gun Shows—sale a few books, and make contacts with fellow conservatives who understand the need to actively defend our Second Amendment Rights as well as defeating the neo-Marxists who currently control America’s media and political institutions.

### Why SCV Camps Should Attend Gun Shows

The local SCV Camp should purchase a display table at every local Gun Show. Too often we hear SCV members complain that “We tried that but never got any new members, so we decided not to do it again.” Instantly gaining new members is not the goal! Occasionally it will happen—especially if you have a genealogist there to help the prospective member find a Confederate ancestor. The main goal is to get the message out to a public that generally supports Southern heritage but most likely has never heard of the Sons of Confederate Veterans. Remember, if we keep putting our positive message out to the public, the local politicians will also get the message! If you are short sighted and looking for instant gratification—you most likely will be disappointed. Our enemies never quit—nor should we!

### Ron Kennedy Speaking to Gathering at the Battle of Pleasant Hill, Louisiana Reenactment

April 9, 2022

Reenactments are a great way to demonstrate our honorable Southern heritage to the general public. Ron spoke to a group of spectators prior to the reenactment battle. The topic was “Civilians—Their Support and Sufferings for the Cause.” During the reenactment, the Kennedy Twins provided a play by play of the battle on Saturday. The gathering of several hundred spectators was given an explanation of tactics and weapons used during the War for Southern Independence.

The reenactment of the Battle of Pleasant Hill is one of few reenactments to take place on the grounds of the actual battlefield.

# Destroying Neo-Marxism

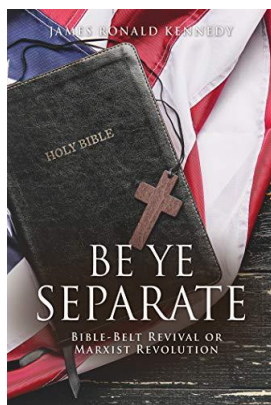

by

## Creating a Winning Nationwide Conservative Coalition

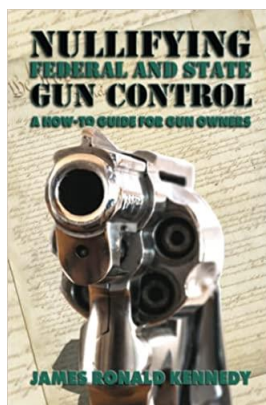

Southern Heritage

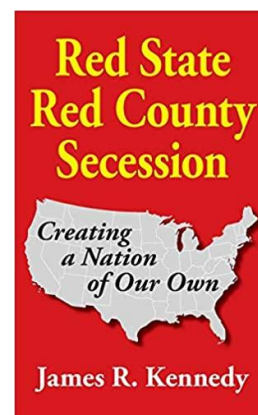

Christians

Gun Rights

Non-Southern Conservatives

Southern heritage folks too often get the feeling that we are a small and therefore insignificant minority. But here is the good news—**We are not alone!** The same neo-Marxist enemies who are pulling down monuments to Confederate heroes are the same evil folks who are demanding the removal of Nativity Scenes; the same unconstitutional folks who are actively attempting to limit our Second Amendment right to keep and bear arms; and the same Deep State folks who are daily passing new administrative regulations, taxes, and printing inflation-creating fiat dollars. It is our responsibility to network with fellow Constitution-loving conservatives and create a winning majority—a *coalition* of fellow conservatives.

## America's Continuing Slouch Toward Gomorrah

Former Federal Judge, Robert Bork, blasted the liberal establishment in his 1996, bestselling book *Slouching Towards Gomorrah: Modern Liberalism and American Decline*. He bravely warned about America's moral collapse. The United States, he argued, had come under assault by feminists, multiculturalists, gay-rights activists, and liberals. His warning was ignored by our counterfeit conservative political class. Today things have gotten far worse than it was when Bork wrote his book! Today, the Federal Supreme Court nullified the right of once Sovereign States to define marriage as between one man and one woman, it has made male sexual perverts claiming to be women a virtual Federally-protected minority, and most recently, the political establishment that refused to confirm Bork to the Supreme Court—that neo-Marxist political gang confirmed to the Supreme Court a woman who cannot define "woman," has a record of being soft on crime and sexual perversion.

Liberals—actually neo-Marxists—have actively engaged in the struggle against traditional Christian values since the 1960s. Christians have been slow or even reluctant to recognize the eminent danger the neo-Marxist quasi-religion of secular humanism represents to our Christian society. Christians in the Bible-Belt must rise up and reclaim the American right to be the master in our own homes; the right of local self-government; and the right to be the ultimate judge as to whether or not the Federal Government's laws, decisions, and regulations are "in pursuance" of the Constitution.

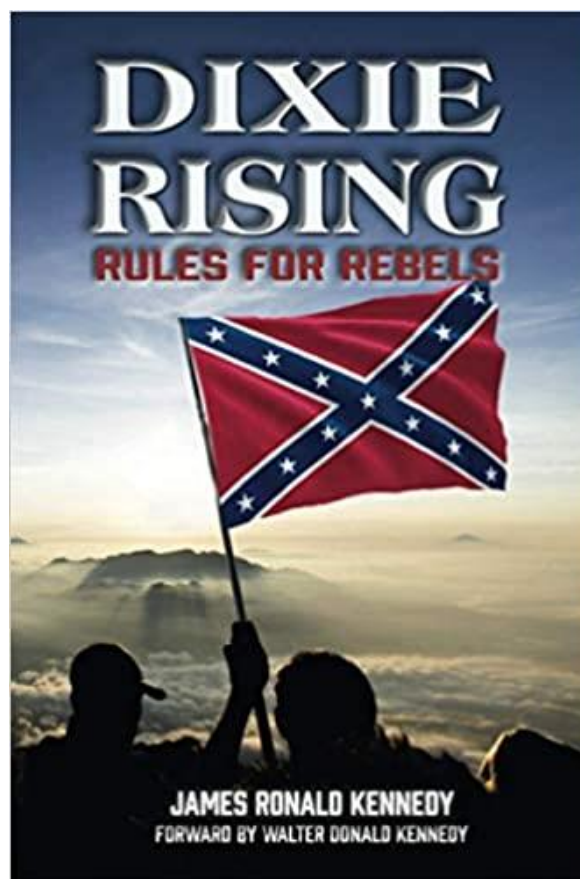

## Hang America's Ruling Elite on the Horns of a Dilemma

The only way to limit the current, unconstitutional, supreme Federal Government is to hang the political establishment on the horns of a dilemma; either they pass our Sovereign State Constitutional Amendment which will re-establish the American principle of real States Rights, or they will be faced with the people in America's Red States and Red Counties initiating a secession movement. They will be faced with the embarrassing situation of explaining to the world why half of "their" nation's subjects no longer want to be part of "their" government.

### Securing A Bully Pulpit—the Frist Step

Only power can counter power. Currently, the neo-Marxists who control America have power, but we do not! One person in a Bully Pulpit could arouse the general public to forceful political action. Southerners and other Americans will follow a strong leader who uses his Bully Pulpit to organize a mass movement; a leader who has developed a strategic plan to defeat the neo-Marxist mobs and replace the current illegitimate, supreme Federal Government with a Constitutional Republic of Sovereign States; and, a leader who has a strategic plan to secure Constitutional rights by reclaiming real States' Rights inclusive of the rights of state nullification and secession. "We the people" must develop the mechanism to enforce the protections enumerated in the Constitution. Always remember that the Constitution is not self-enforcing. By using irregular political warfare, establishing Provisional governments, and capturing a Bully Pulpit, we can create the power to enforce the limitations imposed on the Federal Government by the Constitution or, if necessary, create a nation of our own—a nation that protects and promotes traditional American values.

Second Edition

**The procedure manual for irregular  
political warfare!**

### What Is Irregular Political Warfare?

We are at war with neo-Marxists who are determined to destroy all that we hold dear and replace it with their nightmarish vision of a socialist utopia. They use traditional political tactics because they control vast wealth and can pour millions of dollars into political campaigns. We cannot compete with them dollar for dollar. Therefore, we must adopt the tactics of irregular political warfare. We must not allow them to choose the political battlefield. We must impose upon them a new form of political resistance—something they have never before faced. Irregular political warfare is explained in *Dixie Rising-Rules for Rebels*.

The key factor in organizing and initiating irregular political warfare is to elect one of our own in a statewide office and use that office as a Bully Pulpit to jump-start our conservative revolution across the South and eventually in every Red State and Red County in America. The future belongs to those with a vision and who are willing to turn their vision into reality! Where there is no vision, the people perish.

## Don't Say Gay

When you think of the actions neo-Marxists can't get any crazier, they prove you wrong, again! Recently, Florida passed a law to prevent non-parents from instructing children in kindergarten through the third grade about sexual matters. This law prevents adults from teaching heterosexual, homosexual, and transgender ideology to children, K through the third grade. Like Chicken Little, liberals responded as if the sky was falling. They instantly proclaimed the law the "Don't say Gay" law even though the word "Gay" is not in the law. At one time in America, any adult who approached a stranger's child with overtly sexual messages would be called a "pervert" and suffer the consequences. What happened to sane America?

When Alabama passed a similar law to Florida's law, the Federal Government put Alabama on notice that the full weight of the Federal Government would be used to overturn the democratic wishes of the people of Alabama. The same supreme Federal Government threatening Alabama because they wish to protect their children, is the same Federal Government that sent Federal Marshals into Alabama's courthouses and forcefully removed copies of the Ten Commandments. These two hideous actions were committed by agents of both the Republican and Democrat parties.

While the United States is spending billions of dollars defending national borders from Korea to Ukraine, our national borders go virtually unprotected. Presently, America is facing one of the world's greatest immigration invasions. Although willing to use this crisis to build political support, neither political party is willing to fix the problem. Many Americans were incensed when, during the Obama Administration, free cell phones were given to welfare recipients. Currently, the Biden Administration is perusing a policy of giving free cell phones to *illegal* immigrants!

The crazy Woke Transgender mentality is producing some very ugly consequences. In New Jersey, two female prisoners were impregnated by a "female" transgender male. According to Federal standards, prisons must assign male or female inmates according to how they "identify" themselves. This is the same logic that demands high school locker rooms be open to anyone according to how they "identify" themselves. This too has had devastating consequences for young girls. How much vulgarity and immorality must Americans be subjected to before a REAL solution is embraced?

General Lee warned America about the danger of allowing the Federal Government to become the judge of its power. Lee cautioned that when the power which belonged to the States is taken over by the Federal Government, America would become "aggressive abroad and despotic at home." Can America be saved from this repugnant condition? Yes, it can! But to save America, we must first save the South from both the external Woke enemies and the internal scalawags who are eager to become "sell-outs" in order to advance politically in the new degenerate America. We need a bold political "Bully Pulpit" from which to tell the world our message. Save the South and America will follow.

## The Impact of Louisiana's Bully Pulpit

In

### Every Southern State and Every Non-Southern Red State and Red County

The doubtful and defeated will question the value of electing just one person to the Lt. Governor's office. Yes, there is reason and historical proof for such doubts **IF** you elect a business-as-usual politician! But what we are offering is to elect one of us, a non-politician, someone who has a strategic plan for ultimate victory over our neo-Marxist enemies! At this critical point in our history, America needs someone who will use the prestige of his office to organize a non-traditional political force to use against our enemies. We who love our Constitution and understand the necessity of returning America's Federal Government back to its original Republic of Sovereign States—we are the only ones who have a solution!

If one of the Kennedy Twins is elected Louisiana's Lt. Governor, he will help every Southern State to organize its Provisional government at the state and local level; help to initiate irregular political warfare in your state; and eventually help you elect your state's Bully Pulpit. Every non-Southern Red State and Red County will be organized in our effort to ratify our Sovereign State Amendment. The mainline, digital, national, international, and local media will no longer be able to ignore us! Our movement will become a viable political force for constitutional liberty, freedom, and local self-government.

### How to Join Dixie's 500

It takes money and dedicated men and women to jump-start this non-violent, conservative revolution. According to Louisiana election law/regulations, as soon as an individual announces as a candidate or begins collecting campaign contributions, he must begin filing reports regarding source and usage of campaign funds. This means that the Kennedy Twins will have to pay for an attorney and CPA. Both the state Democrat and Republican establishment will be zealously seeking any misstep with state law or regulations to disqualify our candidate. *We pose a major threat to their very profitable political establishment!* Therefore, we are asking you to send us your pledge to join Dixie's 500. No money yet, but when we reach 500 pledges then the Louisiana elections paperwork will be filed. After the filing we will be contacting you with information of where to send your \$500.00 (or up to \$2000.00 as limited by state law).

Send us your promise of financial support to: [kennedyltgov@gmail.com](mailto:kennedyltgov@gmail.com)

Once we receive 500 or more pledges, we will then launch our campaign website. The website will have a link for donations as well as a mailing address for checks. State law does not allow for cash donation without full disclosure of the amount and the donor. The donations link will be set-up to allow for small donations and repeating donations but this will become effective only after the initial 500 are secured.

The Kennedy Twins will be posting videos on Rumble discussing this campaign and why it is important to secure Dixie's 500. We will also cover topics such as Irregular Political Warfare, Provisional governments, and the movement to force America's leftists to submit our State Sovereignty Amendment to the States. Announcements and links regarding our videos will be sent out via Constant Contact.
