Louisiana’s Lt Governor’s Office—An Ideal Bully Pulpit

“It is time to turn our words into action.” These words were spoken by Polish Freedom Fighter Lech Walesa when he set in motion the Solidarity Movement. By 1990 his movement had overthrown the communist tyranny in Poland. These were brave words, spoken at a time when most folks in Poland thought that the communist would always rule Poland. But Walesa was not satisfied with mere words spoken in secret. How does this compare to the South?

Southern efforts against Federal tyranny since Appomattox can be summed up by the old truism, “After all is said and done, more is usually said than done.” It is time for those of us who believe in true American, Constitutional liberty, for those of us who truly honor our Southern heritage to either “put up or shut-up.” It is time to do more than merely talk about the glories of our past. It is time for us to set in motion a movement to regain that which has been taken from us—a Constitutionally limited Republic of Sovereign States.

We do not need yet another career politician who will promise us everything and deliver nothing! We need one of our own. We need someone who has been “down for the cause” all his life; someone who has a strategic plan not just to “get our monuments back,” but someone who has a plan to totally destroy the power structure that our neo-Marxist enemies use against us. But it takes more than talk—it takes a candidate who can win a statewide election and it takes Southerners who are willing to “put their money where their mouth is.” But what office should we target?

The Louisiana Lt. Governor’s is an ideal office because the Lt. Governor has no responsibilities in the state legislature and relatively very few official duties. This would allow the office holder time to devote to jump-starting our conservative revolution in **other** Southern States and eventually in every American Red State and Red County! Louisiana’s Lt. Governor’s election will be held in August 2023. This gives us ample opportunity to organize the state and help promote our candidate in every part of the state.

We are offering this to you—our fellow Southerners—an opportunity to do more than talk. We can start a movement much like Lech Walesa did in Poland—“We the people” can regain our heritage of Freedom.

Signs of a Dying Nation

Majority of Americans No Longer Trust the Military Services

Only “We the People” Can Reverse the Trend!

A survey conducted by the Ronald Reagan Presidential Foundation and Institute found that “confidence and trust in the military has dropped from 70% to 45% in just the past three years.” This should be distressful for all Americans but especially for Southerners. As part of the post-Appomattox bargain the South became a strong supporter of America’s military. A disproportionately larger number of Southerners have served in the U.S. military since Appomattox. Most Southerners have either served and/or sent a son or daughter to serve in the U.S. military. Yet today America’s Woke, PC, Critical Race Theory leaders have turned a majority of Americans against the very institution needed to protect our country from those nations (China) who wish to dominate us.

It is a part of the neo-Marxist strategy to cause Americans to disrespect all traditional values. We are the only ones who can reverse this trend because we are the only ones with a plan to not just win an election but to initiate a conservative revolution that will utterly destroy America’s neo-Marxist enemies.

21 House GOP Members Support Transgender Civil Rights Bill

According to a recent report 21 “conservative” Republicans in the House of Representatives have signed on in support of a bill “...to make sexual orientation and gender identity a federally protected class under civil rights law.” That means that if a male who identifies as a female, Lesbian, cross-dresser with purple hair applies for a job as a receptionist in your business and you deny him/her/it the job, then you could be punished for discrimination by the Federal Equal Employment Opportunities Commission (EEOC)! <https://www.redvoicemedia.com/2021/11/21-house-republicans-push-to-make-transgenders-a-federally-protected-class/> accessed 11/24/2021.

This is but one example of how unconservative the GOP is and how they always tend to compromise by surrendering on values and moral principles held dear by conservatives. The GOP is not our friend! Instead of relying on the GOP to protect and promote our values and interest, we must develop our own Provisional government—some would call it a shadow government—to protect and promote our interests. This is explained in *Dixie Rising-Rules for Rebels*. In the current political environment “We the people” are a stateless people. By electing one of our own to serve in a Bully Pulpit and conducting irregular political warfare—we can win!

Destroying Neo-Marxism

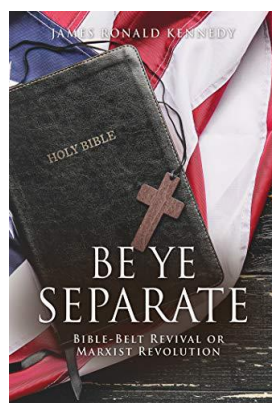

by

Creating a Winning Nationwide Conservative Coalition

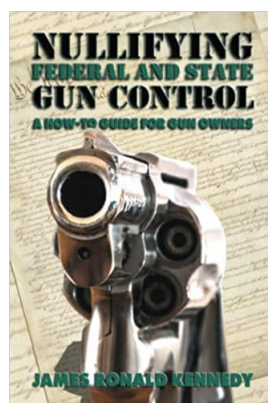

Southern Heritage

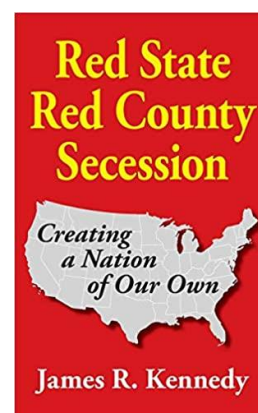

Christians

Gun Rights

Non-Southern Conservatives

Southern heritage folks too often get the feeling that we are a small and therefore insignificant minority. But here is the good news—**We are not alone!** The same neo-Marxist enemies who are pulling down monuments to Confederate heroes are the same evil folks who are demanding the removal of Nativity Scenes; the same unconstitutional folks who are actively attempting to limit our Second Amendment right to keep and bear arms; and the same Deep State folks who are daily passing new administrative regulations, taxes, and printing inflation-creating fiat dollars. It is our responsibility to network with fellow Constitution-loving conservatives and create a winning majority—a *coalition* of fellow conservatives.

America's Neo-Marxists

Liberals, progressives, secular humanists, social justice warriors, etc.

“Neo-Marxism is an intellectual fraud that changed classic Marxism—conflict between the workers and businesses owners—into neo-Marxism which declares a conflict between groups; men vs women, black vs white, illegal immigrants vs native population. Neo-Marxism arose in the 1960s after “intellectual” supporters of classical Marxism realized the utter failure of Marxism in the Soviet Union and Communist China. Instead of rejecting their failed system of communism and socialism they merely reinvented it and, as postmodernists, seized control of America’s educational system of higher learning. They have turned America’s universities into anti-traditional, anti-American values indoctrination centers.” (*Be Ye Separate-Bible Belt Revival or Marxist Revolution* page 1, footnote 20).

“America’s politically correct society is governed by an evil leftist shadow government that establishes its immoral and neo-Marxist ideology as the new standard of social/political conduct. The evil shadow government consists of postmodernists in academia, the mainline and digital media, establishment politicians, Deep State bureaucrats, financial and Globalists elites.” (*The South Was Right!* 3rd ed, p.22).

Neo-Marxists go by many names, they sometimes disagree among themselves but they are united in their desire to destroy traditional, Western Christian civilization. They view the Constitution as barrier to be overturned, destroyed or at least ignored. Some are open about their hatred; others are less open.

The article below was published 11/30/2021 on the Abbeville Blog. The link at the bottom will take you to the complete article. It is a warning to all who think winning a ballot initiative or electing the GOP will save us.

Mississippi—A Warning for Virginia’s Voters

James Ronald Kennedy

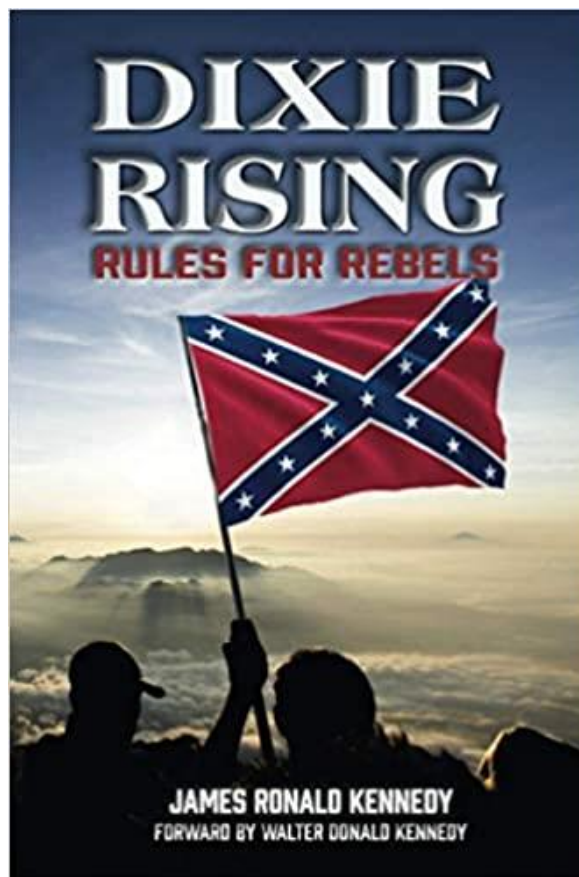

The proud folks of The Old Dominion turned their state from Blue back to Red in their recent governor’s election. Even more dramatic is the fact that in the last twelve months, voters in various Virginia counties voted overwhelmingly to keep their Confederate monuments! In nine out of nine ballot referendums, the voters spoke, and they spoke with a loud voice! This, of course, is in line with a national poll reported by CNN that 52% of Americans wanted to keep Confederate monuments—this was even true in the New England States! In the South, the percentage in favor was even greater—between 60 to 70%. Traditional American values win when “We the people” are allowed to speak. The folks in Virginia should be proud of their victories. These triumphs are victories for all true Southerners. **But with this electoral victory comes a word of caution.** It takes more to defeat our enemies than just winning an election or ballot referendums. Our enemy never sleeps. Mississippi is a prime example.

Too often, conservative voters become “drunk on victory” after a successful election or ballot initiative. They assume that, once the people speak, the political establishment will follow through and abide by the documented “will of the people.” Unfortunately, this is not how America’s current, corrupted, political establishment works. When was a resounding conservative electoral victory followed up by a resounding change in America’s leftist march toward centralization, socialism, and anti-Christian immorality? The answer is NEVER! Occasionally, we win a battle, but conservatives do not know how to win the war! The past 156 years were years of consistent conservative failure—nothing was “conserved.” Occasionally, we may win an election, but the relentless attack on traditional American values continues. The leftist progressive movement that began in the late 1800s never retreated. Today, as President Biden’s Press Secretary recently declared, “The Federal Government can do anything it wants to do.” Where is “our” vaunted Constitution? Today, “We the people” are living in an era created by over a century and a half of conservative failure.

Second Edition

The procedure manual for irregular political warfare!

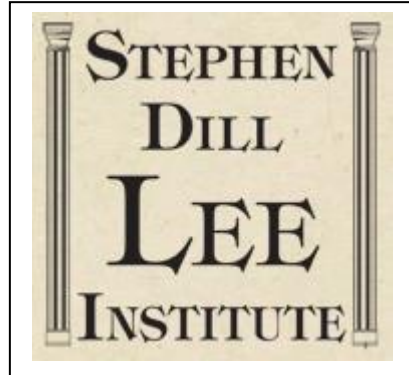

What Is Irregular Political Warfare?

We are at war with neo-Marxists who are determined to destroy all that we hold dear and replace it with their nightmarish vision of a socialist utopia. They use traditional political tactics because they control vast wealth and can pour millions of dollars into political campaigns. We cannot compete with them dollar for dollar. Therefore, we must adopt the tactics of irregular political warfare. We must not allow them to choose the political battlefield. We must impose upon them a new form of political resistance—something they have never before faced. Irregular political warfare is explained in *Dixie Rising-Rules for Rebels*.

The key factor in organizing and initiating irregular political warfare is to elect one of our own in a statewide office and use that office as a Bully Pulpit to jump-start our conservative revolution across the South and eventually in every Red State and Red County in America. The future belongs to those with a vision and who are willing to turn their vision into reality! Where there is no vision, the people perish.

Roll out the Big Guns

As every good hunter knows, you don't take a .22 rifle to a bear hunt. Likewise, in warfare, the “Big Gun” demands and gets respect. The same is true in the fight to preserve Southern heritage. For too long, we have attempted to fight the grizzly bear of neo-Marxism with a .22 rifle. What we need is a big gun. Listen to any conservative talk show and you will notice that great deference and respect is given to any elected official. These people are seen as movers, shakers, and leaders of a large movement. Beyond the office they hold, these elected officials occupy what is known as a “Bully Pulpit.” Their status demands a certain amount of respect and, if wisely used, they can leverage this status and set in motion a REAL revolutionary movement. The Southern Rights movement needs a man in a “Bully Pulpit.”

Yes, we need someone as our “Bully Pulpit” man but it can't be just anyone. There are some good Southern conservatives, Ron Paul was one, who are good men but they are not “one of us.” The Civil Rights movement had a saying about men who attempted to use their movement for political gain. They would always judge a man by the concept of “Was he down for the struggle?” In other words, is he a “johnny come lately” seeking our support for personal political gain or does he have a long and consistent record of fighting for the cause? We need someone with a proven record of fighting for the South and not someone who is simply seeking to climb the political ladder to a higher office.

When we have our “Bully Pulpit” man, the Southern movement can then become a viable movement to regain EVERYTHING lost since Appomattox. If our man was the Lt. Governor of Louisiana, he would not just stay in Louisiana with his message of Southern Rights, he would go all across the South demanding our Rights be respected. He could assist in the establishment of Provisional Governments in every Southern State and every Red County in Blue States. Every time he is interviewed on Fox or Newsmax, he would push for the passage of the Sovereign State Amendment which forces the Federal government to recognize the States' Rights of nullification and secession. This is how we can win but it will take the right man, the right office, and Southerners who are willing to do what is necessary to get this job done.
