Cultural Genocide—New Orleans Louisiana

SURPRISE—SURPRISE—SURPRISE! New Orleans, Louisiana: The United States Federal 5th District Court ruled against the Confederacy! Who would have thought such a thing could have happened? Oh my—what has happened in our “one nation indivisible with liberty and justice for all” country? Please excuse the **sarcasm** but it is hard to believe that any knowledgeable Southerner would think that the Cause of the South would get a fair hearing in the Federal Empire’s courts. Yet, it seems that hope springs eternal in the breasts of some Southerners. For those who cannot understand the Federal Courts’ ruling just remember that “liberty and justice” for the South died at Appomattox. America’s Republic of Republics was replaced with a supreme Federal Empire.

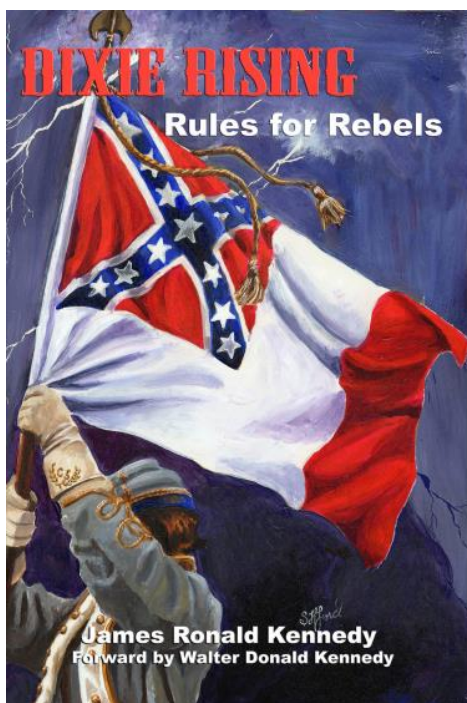

According to an article published in *The Hayride* this effort to complete the extermination of all things associated with the traditional conservative, religious South has its origins in a group of “well connected, powerful elites” that include individuals such as New Yorker David Brooks, Al Sharpton and the “global bastion-of-liberal organization, the Trilateral Commission.” <http://thehayride.com/2015/12/exclusive-meet-the-well-connected-powerful-elites-who-are-destroying-new-orleans/>

The effort to destroy the South has a long history and is continuing today (See *Punished with Poverty*). Whether our people admit it or not, we are in a battle for our very survival. We need to understand that this is not just a flag or monument fight. Those who want to destroy our Confederate heritage will not stop once the last Confederate monument is removed and all CSA flags are sent to museums and otherwise prohibited from public display. As the article in *The Hayride* noted, the enemies of Confederate monuments intend to move against all non-politically correct symbols. Street names will be changed, monuments to other historical figures who owned slaves will be removed, names of streets and parks associated with the Catholic and other Christian churches will also be removed—can’t be seen as promoting one religion over another. After all, non-Christian religions have more rights today than traditional Christian values. *(continued on next page)*

(continued from page 1)

In *The South Was Right!* we documented that the South had a legitimate right to remove itself from a union that had become oppressive; in *Punished with Poverty* we demonstrated that the Federal Empire used invasion, conquest and oppressive post-War exploitation to reduce the South to a state of poverty; and in *Dixie Rising—Rules for Rebels* we put forth a procedure by which we the people of the South can regain the right to be the master in our own home.

We cannot regain local self-government enforced by *real* states' rights by using traditional political campaigns or relying on an appeal to the Federal Empire's courts. The only alternative left to those Southerners who want to win freedom for themselves and generations of Southerners yet unborn, is to engage in irregular *political* warfare. Otherwise we will simply be engaged in "busy work" while our enemies continue their aggressive campaign to exterminate the traditional South.

Quotes from the Old South

“Our country demands all our strength, all our energies. To resist the powerful combination now forming against us will require every man at his place. If victorious, we will have everything to hope for in the future. If defeated, nothing will be left for us to live for.” Robert E. Lee

“Nothing fills me with deeper sadness than to see a Southern man apologizing for the defense we made of our inheritance. Our cause was so just, so sacred, that had I known all that has come to pass, had I known what was to be inflicted upon me, all that my country was to suffer, all that our posterity was to endure, I would do it all over again.” President Jefferson Davis, C.S.A.

“Every man should endeavor to understand the meaning of **subjugation** before it is too late... It means the history of this heroic struggle will be written by the enemy; that our youth will be trained by Northern schoolteachers; will learn from Northern school books their version of the war; will be impressed by the influences of history and education to regard our gallant dead as traitors, and our maimed veterans as fit objects for derision... **It is said slavery is all we are fighting for... Even if this were true, which we deny, slavery is not all our enemies are fighting for. It is merely the pretense to establish sectional superiority and a more centralized form of government, and to deprive us of our rights and liberties.**” Maj. General Patrick R. Cleburne, C.S.A.

Constitution—A Play Thing for Yankees and Liberals

It is amusing to watch liberal mainline media complain about the Trump Administration's alleged indifference to the First Amendment's protection of a so-called free press. This is the same media that never defends the Second, Ninth or Tenth Amendments! The Constitution is a plaything for liberals—they use it when it helps them or they deride it when conservatives appeal to the Constitution. This should not be new to knowledgeable Southerners because we have seen it before. For example; the people of Massachusetts appealed to the Constitutional right of nullification when fighting against the Embargo Acts prior to the War of 1812 and to the right of secession when Louisiana and Texas sought admission to the Union. But they denied these rights when the South used them. Today, same song—different verse.

Recently the Senior Writer for Newsweek, Kurt Eichenwald, was on MSNBC complaining about President Trump's violation of the Constitution—yet he never wrote a single word about the excesses of President Obama. You see to a liberal the Constitution means nothing—it is a plaything to be used against conservatives. Southerners will never be free as long as we are forcefully held under a government controlled by such people.

Southern Freedom—Project 2020

The “successful” Presidential election of 2016 is not as important as the election of 2020. Southerners will get a chance to vote on reclaiming *real* states' rights.

Loss of Civility

State Senator Accused of Domestic Abuse

Senator Troy Brown, who represents portions of eight Louisiana Parishes, has a record of pleading “no contest” to charges of domestic abuse according to recent reports.

http://www.nola.com/politics/index.ssf/2017/01/troy_brown_domestic_abuse.html

& http://www.nola.com/politics/index.ssf/2016/09/troy_brown_domestic_violence.html

Senator Brown's circumstances are perhaps unique but it follows the trend of lowering standards for civil society. Our representatives are elected by pandering to the lowest desires of the electorate. “Free stuff” provided by the “rich” but the “rich” turnout to be hard working taxpayers not the elites on Wall Street or K Street. Republican or Democrat they all pander to their donor class and to those who will provide them with bloc votes in the next election. As explained in *Punished with Poverty* America has devolved from the high stand of electing statesmen (Jefferson et al) to electing “bad” and “ugly” politicians (Nikki Haley et al) (*Punished with Poverty* pages 121-46).

It is not a problem of color or party—it is a problem with the current illegitimate system of government that has been forced upon us. The systematic solution is to return power to the people in a liberty based society. See “Liberty Based Society” in *Reclaiming Liberty*.

Are Southerners Citizens or Subjects?

In ancient Rome, there was a specific distinction made between a Roman citizen and a Roman subject. A citizen enjoyed all the benefits of citizenship regardless of where he lived. Subjects, on the other hand, were required to obey Roman laws, rules, and regulations, pay taxes, and provide their sons for military service but they did not enjoy the same legal protections as did citizens. Subjects were acquired by military conquest of previously free nations and people. Subjects had no rights that the Roman Empire was required to respect. Subjects "enjoyed" certain privileges but these privileges could be revoked or modified at will by the Roman Empire. Today, Southerners enjoy state privileges but these privileges may be revoked or modified at will by the supreme Federal Empire. *Real* states' rights no longer exist! The question then arises: "Are Southerners citizens or subjects of the Federal Empire?" [Project 2020 will restore citizenship!](#)

It Is Not Just a Flag Fight

We the people of the South are in a fight for the survival of our way of life. We are a people who view each other as kith and kin. We are a people fighting for a society based upon traditional Christian values. A people who desire a federal government with constitutionally limited powers enforced by *real* states' rights. A people who desire a government with low taxes and a government with the will to protect our borders from armed or unarmed invaders. But most importantly we desire a government that will simply leave us alone. This is the very opposite of the current Federal Empire.

Poverty imposed upon black and white Southerners by the victorious Federal Empire. The photo was taken in the late 1930s. There was no Marshall Plan for the South! Black or white Southerner did not matter—we are subjects not citizens! [Walker County, Alabama, photo from Library of Congress]

Liberal's Love Some "Lost Causes"

It is interesting to note how liberals support the open display of some flags, such as Mexican or LGBT flags, but they will use their control of the political establishment to deny Southerners the right to display our Southern heritage. In large cities and small rural towns Southerners have been denied the right to participate in parades and other "civic" events. No outcry from the likes of the ACLU or other liberal groups that spring to the defense of those supporting the destruction of America's traditional conservative, constitutional, and Christian values! It should be plain to all by now that we are in a struggle for our very survival! Regardless of how often or how loudly we vainly repeat the "Pledge of Allegiance" we the people of Dixie are not allowed to live in a nation with "liberty and justice for all." **Project 2020 or surrender!**

American Liberty Requires a Fundamental Change in the Federal Government

The problem with our current overgrown, tax, borrow, and spend Federal government will not be corrected by "tinkering" with certain highly visible issues such as a balanced budget, appointing "conservative" Supreme Court members or fixing NAFTA. It will only be fixed by making a *fundamental* change—by returning power to we the people via a return to *real* states' rights. **Project 2020 is the only solution!**

Does Voting Make Any Difference?

In the recent (2016) presidential elections Americans turned out to vote in greater numbers than in past elections. It was an expression of popular discontent with the rule of the country's self-appointed elite. The American public rejected the globalist, financial, and donor class elites. But will it make any difference?

In the first weeks of Trump's new administration we have witnessed two unelected Federal Judges nullifying Trump's effort to fulfill his promise to control immigration from countries linked to terrorism. We have seen the unelected Federal bureaucracy engage in acts that would have caused a "working stiff" to be fired. One thing is for certain—America's ruling elite will not go away without a fight. Project 2020 is not aimed at "draining the swamp." Our aim is to file-in the swamp and replant the tree of liberty in the land of Federal tyranny. The elite and their allies in the media and education establishment are determined to regain control of the Federal Presidential office; Congress is of no threat to progressives; liberals control the Federal judges below the Supreme Court and have major impact on the Supreme Court. In addition, the ruling elite have devised a system of elections that reduces the value of your vote.

The Federal Empire's ruling elite have devised a system of government in which they can control who is elected. Using their system of high dollar elections where the only way to win is to raise millions of dollars for a political campaign, they and their high dollar donors decide who "represents" you in Washington. Under this system of high dollar government (plutocracy) the interests of the elite and their friends are primary; while the interest of "we the people" of the once sovereign states are secondary—if we are considered at all!

Lucifer will not fight Lucifer! Washington, D.C. will not *fundamentally* reform itself. That job belongs to we the people of the Sovereign States. **Project 2020 is the answer.**

Is Your State's Government Legitimate?

Most Southerners have never thought about whether or not their State's government is legitimate. At first, they tend to dismiss it as a ridiculous question. After all, the current government is the only government we have ever had! But when pushed to explain what makes any government legitimate the average Southerner's eyes begin to gloss over.

What makes a government legitimate? It is an important question because as a free people we owe a duty of loyalty to our *legitimate* government. If said government needs correcting, we use the ballot box to elect "good" candidates to correct the perceived error(s) in our *legitimate* government.

The standard for legitimate governments for Americans is found in the Joint Declaration of Independence stating that governments derive their "just powers from the consent of the governed." Any government that is based on anything other than the free and unfettered consent of the governed is not a just or legitimate government—it is an *illegitimate* government. Voting in an election does not bestow legitimacy on a government—if it did then the USSR government or the English government in Ireland would have been legitimate. The passage of time does not bestow legitimacy upon an illegitimate government. Bloody bayonets used to compel submission to their rule does not bestow legitimacy; legitimacy is derived only from the free and unfettered consent of the people.

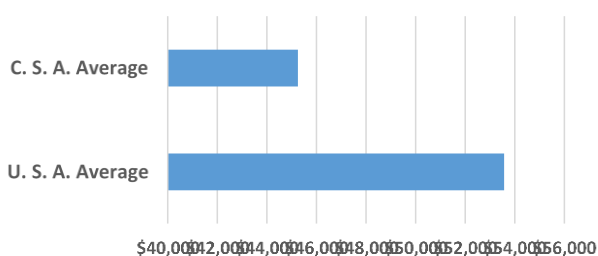

We the people of the South were *compelled* to accept state and federal governments post-Appomattox. We never gave our free and unfettered consent to the radical changes that took place after the destruction of our democratically elected government, the Confederate States of America. Acquiescence or submission to a government established by conquest, regardless of how long that submission has occurred, does not equate to consent. Therefore, all Southern state and federal governments are illegitimate.

[Project 2020 will give us an opportunity to bring this to the attention of all Southerners! Help awaken a sleeping giant!](#)

Median Household Income South vs North 2014

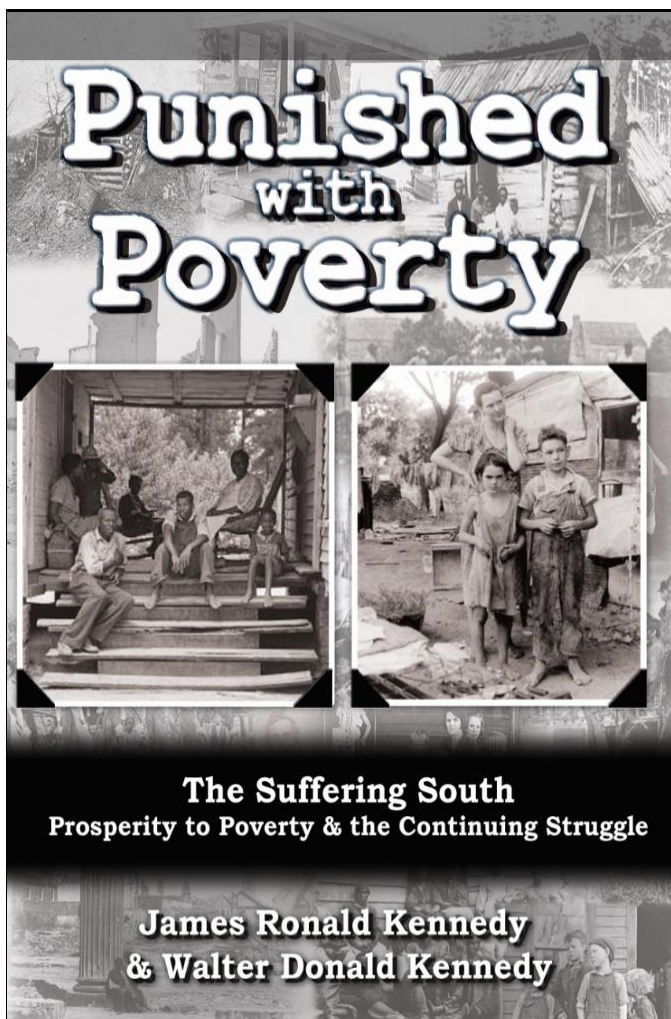

[Graph not to scale: CSA = \$ 40,251, USA = \$50,502; see text for data source]

For those who believe that the War is over and the people of the South are now an equal partner in this "great American Republic" the graphic above should be of interest. If we are equal partners in this country, then why are we the poorest section in the U.S.A.? The truth about our intentionally, impoverished condition can be found in *Punished with Poverty*.

Liberalism Destroys Young People

A recent study in Germany reported that “92% of left-wing activists” live with their parents and 33% were unemployed. <http://www.breitbart.com/tech/2017/02/07/berlin-report-92-left-wing-activists-live-parents-one-three-unemployed/>

This study documents the danger posed by the continuous leftwing indoctrination of our children in taxpayer funded “education” systems. We the people of the South are funding a system of “education” from kindergarten to the university that derides traditional Southern conservative political and religious values while actively promoting Marxists class warfare doctrine. In *Dixie Rising—Rules for Rebels* we point out how we the people can undo the current liberal monopoly of ideas in our educational institutions. It is all part of the effort to engage in irregular *political* warfare in which we will establish shadow governments in every Southern State.

There is no justifiable reason that black and white Southern children should have a lifetime earning potential 30% less than those born in the North!
