## Lt. CiC Walter Donnie Kennedy Announces for SCV Commander-in-Chief

As announced via our August 16, 2023, video on Rumble, I will be seeking your support in the upcoming election for Commander-in-Chief of the Sons of Confederate Veterans. All our lives, Ron and I have been intrigued by the history of our Southern “kith and kin.” We were taught Southern history from the first and second generation of post-war family and friends. This knowledge became our sure bulwark against Yankee mis-information and out-right falsehood about our people. With the publication of the first edition of *The South Was Right*, we began an effort to inform Americans in general and Southerners in particular about the correctness of the Cause of the South, and the deleterious results for all Americans stemming from the defeat of the Confederate States of America.

It is with that resolve that I am attempting to join my fellow SCV members, as the C-i-C of the SCV and push forward the efforts begun five years ago to “take back the narrative.” Simply put, this means making the SCV a well-known organization that is leading the fight against neo-Marxist destruction of traditional American values. In the past few years, the national SCV has begun using tools such as the One-Click Politics, Kaplin Polling services, and Nationwide pro-South ads to punch back at our enemies. I pledge to all SCV members and Southerners to never leave the field of battle until the enemy is laid waste. As I have stated many times in articles and speeches, WE CAN WIN! We do not have to accept defeat. Anything lost can and will be restored and most importantly, as Southerners, our equal Rights as Americans will be secured. God bless the SCV and God Save The South!

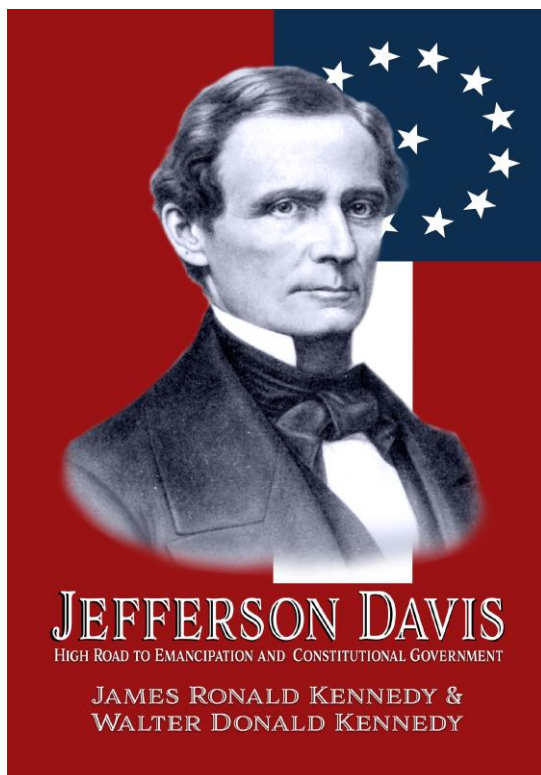

## James Ron Kennedy Announces for SCV Lt. Commander-in-Chief

We can win in court—the **court of public opinion**. As a matter of fact, recent opinion polls show that we are winning! Our challenge is to find effective ways to motivate the public to actively support our efforts to protect Southern heritage and all traditional, conservative values. I am running for Lt. Commander-in-Chief, Sons of Confederate Veterans to not only maintain our efforts but to expand them! I am asking you for your support to win this office and afterwards to help us expand our efforts to vindicate the Cause for which our ancestors fought.

Retention and recruitment are the primary functions of the SCV’s Lt. C-i-C. Using local, statewide, and national advertising we can (1) turn passive supporters into active supporters, (2) gain new camp members, (3) encourage retention of camp members and (4) put weak “conservative” elected officials on notice that the SCV is a nationwide organization that is actively defending and vindicating the Cause of Southern heritage in local, state, and national courts as well as in the **court of public opinion**! With your support and God’s blessings we shall defeat our leftist enemies and vindicate the Cause. **Deo Vindice.**

## Contrasting Davis' High Road to Emancipation to Lincoln's Low Road

One of the most evil and slanderous allegations made by the pre-War North against the South was that Southerners intended to expand and maintain the system of slavery in America forever. Post-War the Yankee Empire's propagandists continue this false and slanderous allegation. They do so to justify the Yankee Empire's illegal invasion and continuing occupation of the South. They arrogantly claim that "The South fought the 'Civil War' to keep their slaves!" Pre-War Northern politicians and other agitators claimed or implied that Southerners were opposed to abolition of slavery and would fight to maintain slavery in America forever. Nothing could be further from the truth. Prior to the capture of the American abolition movement by Northern radicals (around 1830), there were more abolition societies in the South than in the North. The South was motivated to find a way to remove slavery without casting blacks out of their current "homes" and leaving them destitute without any means of support. This is exactly what happened via Yankee emancipation (Lincoln's low road to emancipation) which resulted in near starvation, disease and impoverishment for 8.5 million black and white sharecroppers in the post-War South. Lincoln was asked how slaves, once freed, would manage to live without preparations for living as free people? Lincoln's cruel response was "Let them root hog or die!" Lincoln's attitude toward black Southerners was like those of other Yankees who claimed that once free blacks would become extinct—they would die or else be transported out of the United States. Some high-level Yankees even recommended setting South Carolina and Florida aside as a sort of reservation where the United States could send all blacks! This was Lincoln's low road to emancipation.

### ***Jefferson Davis: High Road to Emancipation and Constitutional Government***

The Kennedy Twins published *Was Jefferson Davis Right?* in 1998. In 2022 we revised the original and added three new chapters, new addendums, and updated data in the original edition. The 1998 edition focused primarily on the Constitutional right of secession and a defense of Davis and the South against the slanderous charge that secession is treason.

The new edition has most of the original, but we have attacked the slanderous charge that the South was fighting to maintain slavery in America. We demonstrate that the South was a leader in the early abolition movement and men such as Jefferson Davis advocated in Congress for the high road to emancipation.

# Destroying Neo-Marxism

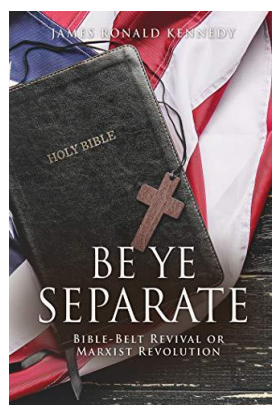

by

## Creating a Winning Nationwide Conservative Coalition

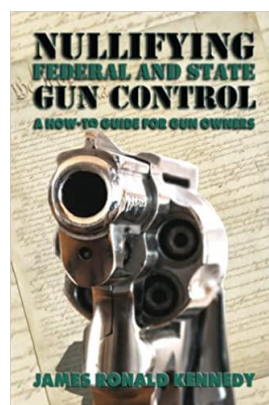

Southern Heritage

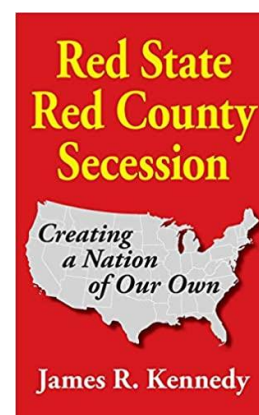

Christians

Gun Rights

Non-Southern Conservatives

Southern heritage folks too often get the feeling that we are a small and therefore insignificant minority. But here is the good news—**We are not alone!** The same neo-Marxist enemies who are pulling down monuments to Confederate heroes are the same evil folks who are demanding the removal of Nativity Scenes; the same unconstitutional folks who are actively attempting to limit our Second Amendment right to keep and bear arms; and the same Deep State folks who are daily passing new administrative regulations, taxes, and printing inflation-creating fiat dollars. It is our responsibility to network with fellow Constitution-loving conservatives and create a winning majority—a *coalition* of fellow conservatives.

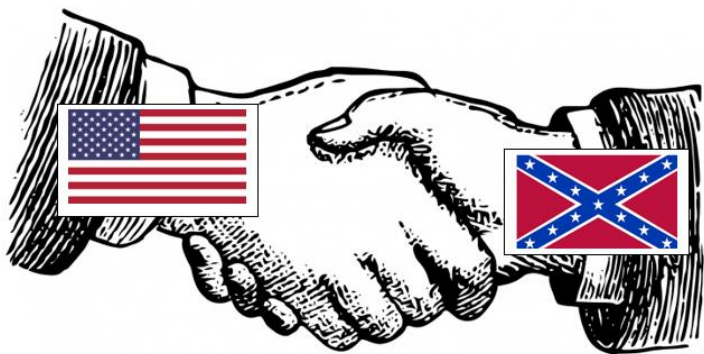

### The Perversion and Degradation of American Society—There is a Solution

A recent headline from California declared that “15 Black Teens Attacked a White Teen” resulting in the death of the white teen. ( <https://www.youtube.com/watch?v=92Xz1AAbRx4> ) This month saw pro-Hamas marches and leftwing mob assault against the DNC in Washington and the publication of the Nashville, anti-white, Trans, Manifesto ( <https://www.youtube.com/watch?v=1XRtEkHxnGo> ), open borders, and trillions of dollars in national debt; all of which is just the tip of the iceberg when it comes to assessing the neo-Marxist assault on traditional American values. If we are to take back our country, we must begin the effort to motivate pacified and/or apathic Americans. Two key ways to do this is via social actions and political actions. These two spheres of activity complement and support each other.

**Social:** As members of social organizations such as churches, American Legion, and SCV camps we must use our influence to encourage ministers to address America’s sinful slouch toward Gomorrah, and demand a return to public prayer, and other Christian values once common in our country. Tax exempt organizations (IRS 501c3) can still use their influence to promote honest and factual history while encouraging citizens to reach out to elected officials demanding they refuse to surrender to leftist demands to censor traditional American and Southern heritage and values.

**Political:** As citizens we must organize a modern-day resistance movement to bring political pressure on those politicians (such as Niki Halley) who have betrayed our values. The first step is to organize into a group that brings political pressure to bear and then to elect our own who will carry forward the movement to restore our original Constitutionally limited Republic of Sovereign States.

## Is North/South Reconciliation Dead?

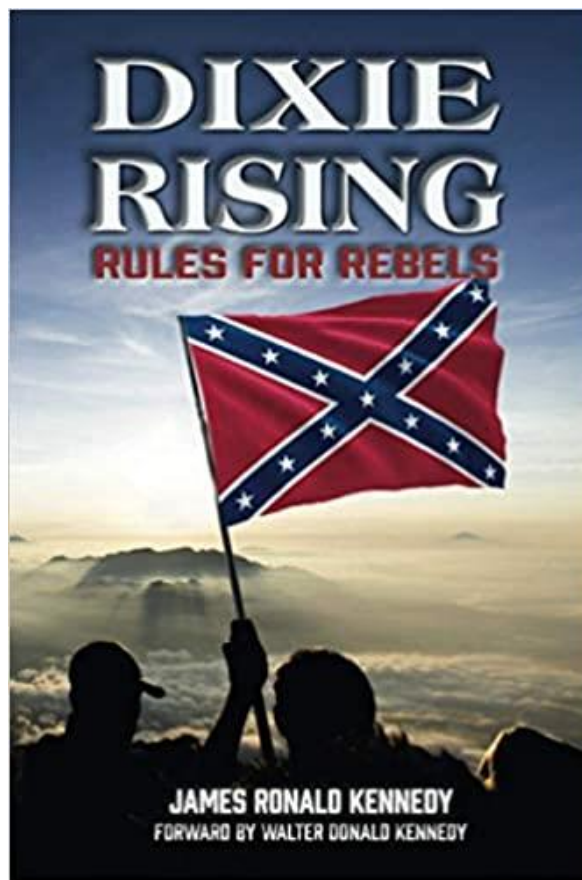

Shortly after the Spanish-American War, President William McKinley, who was greatly impressed with the South's patriotic support of the nation during the Spanish-American War, recommended that all Confederate veterans' graves be honored and he promoted a general attitude of reconciliation. One of the major results of his efforts for reconciliation was the erecting of what we refer to as the Reconciliation Monument in Arlington National Cemetery.

The United States government and its military have declared war on this beautiful monument. They claim that it represents racism and treason. What they are saying is that Reconciliation never occurred and that, other than providing military recruits and taxes, Southerners have no rights that the current government must honor. *Vae Victis*—Woe to the conquered.

**The procedure manual for irregular political warfare!**

**What Is Irregular Political Warfare?**

We are at war with neo-Marxists who are determined to destroy all that we hold dear and replace it with their nightmarish vision of a socialist utopia. They use traditional political tactics because they control vast wealth and can pour millions of dollars into political campaigns. We cannot compete with them dollar for dollar. Therefore, we must adopt the tactics of irregular political warfare. We must not allow them to choose the political battlefield. We must impose upon them a new form of political resistance—something they have never faced. Irregular political warfare is explained in *Dixie Rising-Rules for Rebels*.

The key factor in organizing and initiating irregular political warfare is to develop a Southern Resistance Movement to make a fundamental change in the current illegitimate Federal Government—to restore America's legitimate Republic. The South could jumpstart a peaceful conservative revolution that will spread to every Red State and Red County in America. The future belongs to those with a vision and who are willing to turn their vision into reality! Where there is no vision, the people perish.

## Majority of Democrats Think the U. S. Constitution is Racist and Sexist

The results of a recent public opinion poll should not shock any thinking American. It demonstrates that most people who vote and support the Democratic Party are convinced that the U.S. Constitution is basically evil! This is evidence of the death producing impact that postmodern educators are having in our once conservative nation, founded on Biblical morality. The poll found that “most Democrats, specifically, believe the founding document is rooted in racism — 57 percent. Most Republicans (84 percent) and independents (60 percent) disagree that the Constitution is rooted in racism.” The left works day-in and day-out to destroy our once free country—what are we doing? See full article at:

Most Americans are shocked when told that both Karl Marx and Adolph Hitler admired and supported Lincoln’s effort to destroy REAL States’ Rights. Even more shocking is the fact that Marxists, socialists, and communists assisted in the founding of the Republican Party and the election of Lincoln in 1861.

There is indeed a story about Lincoln and the Republican Party that has gone unspoken for far too long. In *Lincoln, Marx, and the GOP*, Kennedy and Benson have improved and expanded their book *Lincoln’s Marxists*, published by Pelican Publication and now out of print. With their new book *Lincoln, Marx, and the GOP*, published by Shotwell Publishing, the story about Lincoln’s leftist supporters is once again told!

Here are a few examples of some shocking information about Lincoln that is exposed in their new book:

1. Lincoln is the only U. S. President to have received warm communications and praise from Karl Marx.
2. Lincoln was the first U. S. President who had a communist in his cabinet.
3. Radical Socialists and Marxists played a key role in the founding of the GOP and Lincoln’s election.
4. Radical socialists and communists were eager to join in Lincoln’s war against the sovereign States of the South, while no communists or socialists were found in the Confederate government or military.

The fact that the founding father of modern-day communism and Nazism found something worthy of praise and emulation in Lincoln should make real American patriots question what they have been taught about Abraham Lincoln—America’s greatest tyrant.

### Lincoln: Non-Christian President

For many Americans, to ever question any action of Abraham Lincoln is the most profane, sacrilegious act any American can perform. When Lincoln’s tyrannical acts are called into question, even most conservative religious leaders will rush to defend “our Christian” president. While it is easy to prove the President Jefferson Davis was a baptized member of a church and was a faithful church member regardless of where he lived, the same cannot be said about Lincoln. Lincoln is the only United States President that is not listed as a member of a Christian denomination. The only United States Supreme Court Justice that does not have a confirmed church affiliation was appointed by Lincoln. Lincoln’s close friends believed he was a “Freethinker” and totally rejected traditional Christianity. The transformation of Lincoln from a secular humanist Freethinker into a faithful Christian is one of the most successful con-games in American history. ## Reconstruction: Federal Tyranny Destroys the Republic

[The following is taken from Chapter 2 of Ron Kennedy's upcoming book on Reconstruction]

The modern-day justification for Reconstruction is based upon three slanderous lies about Lincoln's war of invasion and extermination. These Yankee lies hide the fact that Lincoln's war was waged against the people of a sovereign nation—The Confederate States of America. America's ruling elite, who control the current political *status quo*, must maintain these anti-South slanderous lies to prevent Southerners, as well as the rest of conservative America, from questioning the legitimacy of the current political *status quo*. These three lies are:

1. The North fought to preserve the Union,
2. The North fought to free the slaves, and
3. The North sought to use Reconstruction to establish civil rights for blacks.

The slanderous implication in each of these lies is that the South fought to destroy the Union, fought to keep slavery as a permanent labor system, and the South's resistance to Reconstruction was based on race hatred and a desire to deny blacks an opportunity to participate as free men and women in society. The invader uses slanderous lies to justify a war to deny the right of self-government to Southerners—a right boldly proclaimed in America's Declaration of Independence.

### Southern Truth vs. Yankee Lies

The fact that the Union did not dissolve when the Southern States seceded demonstrates the total fabrication of the first lie. This first lie was and remains an effective emotional propaganda tool to rally misguided patriots into unquestioning support for an all-powerful Federal Government. The Federal Union was in no more danger of dissolving when the Southern states seceded in 1861 than was Great Britain in 1776, after the Thirteen American Colonies seceded from their union with Great Britain. For both central governments the contest was not over the principle of liberty but their potential loss of profits!

The second lie, that the North was fighting to free the slaves, is easy to destroy if facts mean anything in modern America. The simple fact is that after most Southern states withdrew their representatives and senators from the U.S. Congress—meaning the North had complete control of Congress—the remaining Northern States and two Border States voted for and sent to the states for state ratification the Corwin Amendment. Republican Senator Corwin from Ohio authored, and Lincoln supported, the Corwin Amendment. This proposed constitutional amendment would “forever prevent the federal government from interfering with slavery in the states where it existed.” Radical Republican Thaddeus Stevens declared that tariff was more important than slavery. Yankee profits were at risk.

Lincoln and the Republican Party's war did not end slavery—it merely set the stage for a labor system far worse than Southern chattel slavery. After “emancipation,” blacks and poor whites were reduced to a new form of slavery—sharecropping. Lincoln's low road to emancipation led millions of black and white Southerners into a system of economic serfdom—the opposite of the alluring but false promise of Yankee freedom.

The third lie, that Republicans were earnestly seeking a system of government that would guarantee civil rights for freed slaves, will be explored and exposed in subsequent chapters. The exposure of these three lies so essential for the establishment and maintenance of the unconstitutional (illegitimate) supreme Federal Government leads to an important question—a question that the current political *status quo* is determined to prevent from ever being asked! “What was the motivating factor causing the Republican Party to impose Radical Reconstruction on the South?” The impact of Modern Era Reconstruction in America today demonstrates the truthfulness of Confederate Vice President Stephens' words, who, after the War, declared, “The cause of the South is now the cause of all.”
